GREEN TEA OF SPRING

When spring comes, all things bloom; and fragrant tea plants are no exception.

Right before the arrival of Ching Ming Festival, tea plants grow tender leaves that exude a wondrously fragrant aroma. The leaves that grow during this season are the most nutritious and full of spring flavour; the ideal leaves for tea lovers every year. The Tea Master of Grand Lisboa Palace has extensively searched, and carefully selected special lake and mountain tea leaves that uniquely bloom in spring for this tea programme.
